 **Academic Choir**

Cooperation with the socio-economic environment

Cooperation with schools and science outreach

For many years, UKW has actively supported young people by offering students at different stages of education patronage classes, academic support, competitions, workshops and scientific meetings.

Centre for Technology Transfer and Innovation

serves as a contact point for organisations interested in cooperating with UKW in innovation, knowledge transfer and technology transfer.

Commissioned research and R&D projects

UKW carries out research and R&D projects in response to the needs of businesses and the wider economic environment.

International cooperation

UKW continuously develops its international cooperation by building a network of academic partnerships and providing students and staff with broad opportunities for mobility, exchange of experience and joint initiatives.
